Contents

Part One. Mushroom Production Technology in Central Luzon....1

Chapter 1. Central Luzon, A Potential Mushroom Growing Region in the Philippines....3

Mushroom Production Potential of Central Luzon....4

The Provinces of Central Luzon....4

Edible Mushrooms Most Adapted Under Central Luzon Conditions....8

Volvariella volvacea (Bull. ex.Fr.) Singer....8

Pleurotus sajor-caju (Fr.) Singer.....10

Auricularia polytricha (Mont.) Sacc.....10

Collybia reinakeana (P.) Henn.....10

Chapter 2. Spawn and Mushroom Production Technology in Central Luzon....15

Volvariella Production....15

Spawn Production....16

Outdoor Cultivation....18

Indoor Cultivation....21

Pleurotus and Auricularia Production....24

Spawn Pellet Production24

Bag-type Cultivation....24

Part Two. Mushroom Research in Central Luzon....27

Chapter 3. Trends and Prospects of Mushroom Research in Central Luzon....28

Mushroom Researches Through the Years....28

Mushroom Research Topics in Focus....31

Types of Mushroom Used in Research....37
Things yet to Explore in Mushroom Research....38

Chapter 4. Mushroom Research Highlights.....42

Mushroom Genetics and Breeding....42
Mushroom Ecology.....54
Substrate and Growth Analysis.....61
Spawn Technology.....80
Mushroom Production.... 88
Mushroom Diseases and Pests.....103
Mushroom Wastes Utilization.....107
Mushroom as Nutraceutical115
Mushroom as Biopesticide.....127
*Mushroom Postharvest Handling
Processing and Marketing.....131*
Mushroom Extension and Dissemination....134

References.... 139
